

# 2010 SECURITY SEMINAR & VBIED EXERCISE

*A PCIC Educational Event*

**October 7th 2010**

State Capitol Building, Harrisburg

---

A VBIED is a vehicle borne improvised explosive device—more commonly known as a “car bomb.” This year’s exercise will put attendees in a tough situation: What do you do if you discover a VBIED parked at your facility near storage tanks? And what if the VBIED is found to have maps of other facilities in the northeast?
