

NAEM'S 15TH ANNUAL EHS Management Forum

THE FAIRMONT HOTEL VANCOUVER

October 24 - 25, 2007 • Vancouver, British Columbia, Canada

STEWARDSHIP TODAY FOR TOMORROW

FINAL CONFERENCE PROGRAM

Cultivating EHS Management Excellence

NAEM is the premier professional association for the advancement of environment, health and safety (EHS) management.

Consistently delivery high quality educational programs for 16 years, the Association strives to develop EHS professionals as leaders and provides a strong networking community.

NAEM is the only association created specifically for the “in-house” E/EHS manager. It uses proven peer-to-peer, business-to-business information sharing to cultivate excellence for its members, promotes the implementation of EHS management systems worldwide, and focuses on the integration of EHS into business as a value driver.

Dear NAEM Forum Attendees:

Welcome to the 15th Annual NAEM Forum. We know that you have many conferences to choose from and we are excited that you chose this Forum. We believe the peer-to-peer learning that occurs in the Forum is the best way to advance EH&S programs of all sizes, both in industrial and non-industrial settings.

As EH&S professionals, we’ve had to learn how to manage and incorporate new issues into our already full plate of the standard EH&S issues. The challenge before all of us is to do this effectively while meeting our individual company’s EH&S performance goals and objectives.

During the Forum, you will meet likeminded, experienced professionals from many different sectors that are dealing with similar issues you are managing. One benefit of the NAEM Forum, is that you can network with these professionals and develop great relationships. Relationships can be an important tool for effective management. Take advantage of this opportunity. “Steal shamelessly.” It will save you a lot of time and effort!

Enjoy the Forum!

Leslie Montgomery
Forum Chair
Environmental Stewardship Program Manager
Southern Company

Ana Fernandez
Forum Co-Chair
Director of Environmental Programs
US Foodservice

P.S. I personally would like to thank NAEM for giving me the opportunity to serve as Forum Chair. I have thoroughly enjoyed working with the dedicated staff and committee this year. Please join me in thanking Ana Fernandez for stepping up as next year’s Forum chair. With your input and her leadership we will continue the tradition of having outstanding conferences. Leslie

The NAEM EHS Management Forum

is the premier resource for EHS professionals like you.

General Information

LOCATION

NAEM's Education & Exhibit Program is located in The Fairmont Hotel Vancouver on the Conference and Discovery Levels.

ON-SITE REGISTRATION HOURS

Conference Level, British Columbia Foyer

Tuesday, October 23 3:00pm – 7:00pm
Wednesday, October 24 7:00am – 5:00pm
Thursday, October 25 7:00am – 12:00pm

NAEM/FORUM STAFF OFFICE AND REGISTRATION

NAEM and Forum staff are available to assist you. Check in with us at the NAEM Registration desk, located on the Conference Level of The Fairmont Hotel Vancouver.

PRESENTATIONS AVAILABLE ON FORUM CD-ROM

The 2007 EHS Management Forum features 4 educational tracks:

DEMONSTRATING BUSINESS VALUE

EHS managers continue to be faced with the challenge of how to demonstrate their value to the firm. This track features case studies on Expanding EHS into Business Continuity Planning, Moving Beyond Compliance and how companies combine leading and lagging indicators into comprehensive EH&S scorecards. Additionally, there are sessions focused on aligning sustainability metrics with business strategies, public reporting and EMIS systems that measure and manage corporate metrics.

MANAGEMENT SYSTEMS

In today's organizations E/EHS managers must be skillful at handling an extensive range of management issues, creating & directing innovative initiatives and developing new internal partnerships. This track features case studies and expert presentations on the most pressing issues you are facing! Come hear lessons-learned by your peers on topics such as integrating management systems, sharpening your auditing program and strengthening safety management systems. You'll also hear about creating business value in developing legacy sites and how companies are aligning their EMIS with non-EHS systems.

BEYOND YOUR BORDERS

If your company is impacted by the global economy, this track is for you. Sessions will examine the relevance of external stakeholders, global and domestic regulatory trends and other drivers impacting a firm's ability to operate in today's global marketplace. Learn about the challenges and strategies to manage worldwide operations, the global supply chain, and outside contractors. You'll hear how your peers are holding their suppliers accountable, case-studies on more effective oversight of contractors as well as what to expect in the near future, with emerging global & domestic regulations and standards.

STEWARDSHIP & SUSTAINABILITY

Once only discussed among EHS professionals, stewardship & sustainability are increasingly part of the public and senior management dialogue. This track focuses on the value to the business and how to communicate that value. Come hear how your peers are effectively reaching out to their internal stakeholders, engaging the public for greater business success, and creating new business opportunities. You'll benefit from case studies on effective strategies for water sustainability initiatives, and learn how your peers are assessing enterprise risks when dealing with climate change and how they are developing, and implementing, quality GHG management programs.

Keynote Speakers

Glen Hodgson, Chief Economist, Canadian Conference Board. Glen Hodgson brings 25 years of experience and a specialization in international economic and financial issues to the position of Senior Vice-President and Chief Economist of The Conference Board of Canada.

Simon Laddychuk, Vice President, EHS FIRST at Alcan, Inc. Mr. Laddychuk oversees the global development and deployment of EHS FIRST - Alcan's approach to Environment Health and Safety.

Jim Clemmer, Author, Speaker, Performance Expert. For over 25 years Jim Clemmer's practical leadership approaches have been inspiring action and achieving results.

Don Ritz, VP Safety and Health, Barrick Gold Corporation. Don Ritz is an acknowledged leader in corporate loss mitigation and risk management through the creation and implementation of environment, health and safety policies and programs.

Gene Kahn Vice President; Global Sustainability Officer for General Mills, Inc. Gene is a pioneer in the Organic Food & Farming movement. He founded Cascadian Farm Inc. in 1971, where he built a vertically integrated farming and marketing company.

Ana Fernandez, Director of Environmental Programs, US Foodservice

TODAY'S LEADERS FOR TOMORROW'S STEWARDSHIP

If you had 15 minutes to communicate your business value to the CEO, what would you say? In this opening keynote you'll see the global business landscape through the lens of the "C Suite" and gain insight into emerging trends and macroeconomic conditions influencing decisions at that level and how one company internationally acclaimed for its EHS management, is integrating stewardship as a core driver in its business strategy. Sustainability and economic growth can go hand.

Glen Hodgson, Chief Economist, Conference Board of Canada

Simon Laddychuk, Vice President EHS FIRST and Sustainability, Alcan

CONCURRENT SESSIONS

SESSION I

Waddington

EXPANDING EHS INTO BUSINESS CONTINUITY PLANNING

As the world of EHS continues to grow, one natural fit is taking ownership for Business Continuity Planning (BCP). BCP is done with similar processes, thinking and outcomes as many EHS programs, and is a great opportunity for EHS professionals to become closer to customers and other parts of the business. This session provides three case studies of how EHS professionals have tackled challenges of BCP, including the critical area of crisis communications. Speakers will present on how they executed BCP programs and challenges that they have faced along the way.

Mitch Fonda, Manager, EHS North America, Millipore

Mike Morgan, Manager, Environmental Services Department, Delta Air Lines

Moderator: **Leslie Montgomery**, Environmental Stewardship Program Manager, Southern Company

have you....got waste? ...then you've got worries, too!

- CHWMEG is a non-profit trade association representing over 185 members (over 440 *industrial companies*)
- CHWMEG helps its members monitor the potential risks associated with waste processing facilities
- CHWMEG has conducted over 1,600 detailed reviews at nearly 800 waste processing facilities world-wide

INTEGRATING MANAGEMENT SYSTEMS: THE NEXT GENERATION OF INTEGRATION

Management systems require the same or similar elements. This session will address how companies are transitioning existing management systems (EHS, Security, Quality, Social Responsibility, and Sustainability) to identify clear accountabilities, align local management systems, reduce redundancies, harmonize strategy, achieve operational excellence, and improve organizational understanding and communication.

Ross Grayson, Director, Environmental Health and Safety, University of California

James Hunn, P.E. Vice President, Maritime Policy and Compliance for Carnival Corporation

Moderator: **Johanna Jobin**, Management Consultant, CDM

GLOBAL REGULATORY UPDATES

In this session, you will hear updates on the critical international regulatory developments from around the world – then see how some of your colleagues are proactively managing them for the benefit of their respective businesses. Enhesa will give a global EHS update, British Petroleum share their strategy and tools for addressing ever-changing EHS requirements around the world, and HainesBrands will discuss their Chemicals Management Program and the effort they are making to have it become a global standard.

SHARPENING YOUR AUDIT PROGRAM

Through case studies of two company's audit programs you will learn how they are getting it done partnering with both internal and third party auditors to audit a growing list of areas beyond EHS. Learn about the history of their programs, their strategy on selecting third party auditors and the use of a Third Party Auditor model.

Kim Bittman, Environmental Manager, Teck Cominco Limited

Tom Ramos, Assistant Director GMAS, General Motors Corporation

Jeff Sacre, Administrator, CHWMEG, Inc.

Ted Schneider, Third Party Auditors for GM, Murdock Goldenberg Schneider & Groh, LLP

Moderator: **Don Fraser**, Canadian Environmental Auditing Association

SESSION 7

Boardroom

SUSTAINABLE RETAILING: WHAT WILL TOMORROW BRING?

Many retailers are criticized for not providing more 'green' products to their customers; greener packaging, less toxic ingredients and recycling components. Other considerations include sustainable design and energy efficient buildings. But, there are many challenges for a retailer to go green, and it starts with clearly defining a sustainability ethic and framework. In this session, you'll hear how retailers actions with respect to greening and sustainability effect other retailers and the market.

Kathy Loftus, National Energy Manager, Whole Foods Market

Pat Perry, Senior Group Manager, Environmental Services, Target Corporation

Moderator: **Margery Moore**, Strategic Alliance Manager, BNA

CLIMATE CHANGE: ASSESSING YOUR RISK

This session will examine the continuum of strategies that companies are employing to assess and manage the risks associated with climate change. An evaluation of the current U.S. market will be provided, in the context of international GHG developments. Specifically, this session will include a discussion of developing domestic GHG programs and an outlook on what to expect in the long-term for GHG developments. Corporate case studies will be presented on strategies for developing GHG management programs, inventorying GHG emissions, certifying GHG emissions assessments, selecting voluntary registries and initiatives, and evaluating strategies for achieving GHG reductions.

STAKEHOLDER PERSPECTIVES ON CORPORATE SUSTAINABILITY REPORTING

Corporate sustainability reporting provides information about a company's commitment to environmental and social responsibility, challenges and achievements. But how do the various stakeholders interpret and use the information contained within CSR reports? How might the information contained within the report affect a company's reputation and success? Speakers will offer their perspectives on the bridge between corporate sustainability performance and business success, and will provide insight about how CSR data may be evaluated and interpreted.

EYE ON SAFETY MANAGEMENT SYSTEM

Incident investigations are a critical part of Process Safety Management and HSE Management Systems. Companies require a process that ensures that the true root cause(s) of any incident have been identified and corrective actions implemented. Join us and learn from the experiences of a U.S. Chemical Safety Board Investigator. Gain insights into the common mistakes and trends from an investigator's viewpoint as well as hear how one company's model system is utilized to conduct timely and accurate root cause investigations and track them until closure.

David Palet, Corporate HSE Engineer, The Valspar Corporation

Stephen Selk, Manager of Investigations, Chemical Safety Board

Moderator: **Allen Stegman**, Director, Environmental Affairs, The Valspar Corporation

SESSION 11

EHS ACCOUNTABILITY ACROSS THE SUPPLY CHAIN

The relationship between suppliers and manufacturers has extended into the area of EHS accountability. Manufacturers are reaching out beyond their walls and creating change in how they do business with suppliers. As a manufacturer or retailer, how do you evaluate the sustainability of your suppliers? What happens if they don't measure up? As a supplier, how are your EHS programs impacted by your customers' requirements? Is it possible to satisfy everyone? This session will probe these questions, and more, as we address EHS expectations beyond the walls of your company.

GENERAL SESSION**COURAGEOUS LEADERSHIP: DOING WHAT'S RIGHT AND CHANGING FROM THE TOP-DOWN**

You'll be inspired to take action by this presentation by Canada's foremost business management & leadership authority and a visionary EHS leader. Changes are constant and managing change isn't getting any easier. Each and every employee is fundamental in improving the organization's safety culture, and the key to the success of the system is a commitment to leadership and a common vision of workplace safety from the top-down. Experience how one company committed to have "every worker go home safely at the end of each day," and how they accomplished it by taking a risk-based approach, using practical applications, and focusing on core attitudinal values.

SETTING YOUR MANAGEMENT SYSTEMS BEYOND COMPLIANCE

Organizations have to comply with a significant number of regulation, and sometimes that's all an organization does. But some companies have been setting the pace as good corporate citizens. Beyond simply focusing on the bottom line, they care about how they do business and how they affect the customers and communities they serve. In this session, you will hear how companies have introduced the necessary processes, systems and culture to go beyond compliance.

Mark Hause, Environmental Competency Leader, DuPont

Vancouver

IMPLEMENTATION OF COURAGEOUS LEADERSHIP FOR SAFETY AND HEALTH

With environment, safety and health, the path to change is not as clear-cut as it is elsewhere. Is there a "silver bullet"? Gandhi said, "we must be the change we wish to see." Change begins when an organization or individual realizes that while what they have done before may have gotten results, it is not the results they are truly looking for. This presentation will focus on some of the Courageous Leadership course examples.

Bruce Huber, Director of Safety & Health, Barrick Gold Corporation

Don Ritz, Vice President, Safety and Health, Barrick Gold Corporation

Moderator: **Glenn Mayer**, Partner, EDSG LLC

MANAGEMENT STRATEGIES

In today's business world, companies are operating in various locations throughout many states, with facilities and business units under the same organizational umbrella having to manage and follow all of the different regulations and guidelines. Staying on top of these changing regulations is a daily challenge facing many EHS managers. In this session, you'll hear strategies on effectively operating across state lines and the lessons learned along the way.

Dawn Krueger, QEP, Manager, 3M Environmental Operations

Waddington

ALIGNING SUSTAINABILITY METRICS WITH BUSINESS STRATEGIES

Traditionally, business objectives have been measured in financial terms; yet, to realize the business value of addressing environmental, social and broader economic issues, non-financial metrics are also needed to drive business success. These metrics can help businesses manage and identify long-term business opportunities and future risks. The challenge is to use the right mix of metrics that provides value - providing meaningful information, informing strategy and supporting decision-making.

Dr. Steve Dunn, Director, Center for the Advancement of Sustainable Processes and Environmental Research, College of Business, University of Wisconsin Oshkosh

NANOTECHNOLOGY: WHAT'S SO BIG ABOUT THE SMALL STUFF?

In this session, you'll learn about how nanotechnology is emerging as one leading new technology of the 21st Century. Applications for nanomaterials (NM) include industrial and consumer products within the electronics, biomedical, automotive and aerospace industries. You'll also hear how companies are addressing concerns regarding occupational exposures to NM, their potential adverse health effects on workers and the public and possible environmental impacts. This is your opportunity to get an overview of this exciting technology and the related health, safety, and environmental concerns

Dr. Brenda Berry, Senior Toxicologist, ENSR

Dr. Vicki Colvin, Professor of Chemistry and Chemical Engineering, Rice University

Dr. Terry Medley, Global Director, Corporate Regulatory Affairs, DuPont

CLIMATE CHANGE: DEVELOPING YOUR GHG MANAGEMENT PROGRAM

This case-study session will provide practical advice to EHS managers who are empowered to develop, enhance or implement a greenhouse gas (GHG) management program. Learn from your peers how they created corporate GHG policies & procedures, approached managing emissions and developed comprehensive inventories to provide a successful framework for action. Also discussed will be the value of third-party certification of reductions, carbon offsets and other innovations in this arena.

DO SCORECARDS DRIVE PERFORMANCE? COMPREHENSIVE EH&S SCORECARDS

How do we know when we've achieved our objectives and are doing the best we can? How do we know our management systems are working? Lagging metrics tell us if our management systems are improving the environment and saving money. But, leading indicators tell us how we are impacting the different areas of our business. Come hear the pros and cons of leading and lagging indicators, and how to combine them into a comprehensive scorecard to garner management buy-in and drive performance.

Maribel Crespin, Senior EHS Manager, Coors Brewing Co.

Moderator: **Doug Marian**, Senior Project Manager, Civil & Environmental Consultants, Inc.

EMIS: INTEGRATING WITH NON-EHS SYSTEMS

Many organizations have recognized the benefit of integrating their EHS program with other business functions to better manage risk and improve environmental performance. Integrating existing information systems with the environmental program is critical for achieving this goal. As they begin this process, many organizations have found that there are more similarities than differences in the types of data to collect and analyze. Learn about the challenges, benefits, and lessons learned that organizations have realized from integrating these systems.

15TH ANNIVERSARY CRYSTAL BANQUET

Join us in celebrating the Forum's 15th Anniversary. The Forum's Thursday evening will be included in this year's registration. The celebration will include a cocktail reception, formal dinner, dancing and entertainment with dancers and musical themes of music of the last century. Business attire requested.

Sponsored by NAEM with support from

Shaw® a world of **Solutions**™

EH&S Solutions

Environmental Health & Safety is as important to Shaw as it is to our clients. A global provider of engineering, design, and construction services, Shaw assists in projects ranging from facility compliance services to site characterization and remediation. We use innovative approaches and state-of-the-art methods to resolve our clients' EH&S issues safely, quickly, and cost effectively.

www.shawgrp.com

ENGINEERING • CONSTRUCTION • PROGRAM MANAGEMENT • TECHNOLOGY

Join us in celebrating the Forum's 15th Crystal Anniversary!

From its inception, the Forum has brought together environmental, health & safety professionals and their stakeholders to exchange information, share best practices and collectively seek new solutions to common challenges. Its success is due to the commitment of the volunteers and staff who, together, continue to create a truly vibrant conference with a unique focus on community.

NAEM is a non-profit, educational association that relies on the contributions of its members. This is our opportunity to honor all those whose gracious contributions have made the association, and this conference, such a vital part of the EHS professional community.
